

# Shock absorber YSRW-DGC-18-GF

Part number: 540346

## Data sheet

| Feature                          | Value                                       |
|----------------------------------|---------------------------------------------|
| Size                             | 18                                          |
| Cushioning                       | Self-adjusting<br>Soft characteristic curve |
| Mounting position                | Any                                         |
| Position sensing                 | None                                        |
| Max. impact velocity             | 3 m/s                                       |
| Mode of operation                | Pushing<br>Single-acting                    |
| Corrosion resistance class (CRC) | 2 - Moderate corrosion stress               |
| LABS (PWIS) conformity           | VDMA24364-B1/B2-L                           |
| Ambient temperature              | -10 °C...80 °C                              |
| Type of mounting                 | With locknut                                |
| Note on materials                | RoHS compliant                              |
| Piston rod material              | High-alloy steel                            |
